The Jury independently evaluates the contestants with points from 0 to 100 and decides on the awarding of special prizes. Key elements of performance, that are to be evaluated or taken into account from jury are technical readiness, correctness of the performance (scores), musicality and overall impression of the participant of the competition. Competitors and mentors are advised to choose a technically and character-diverse repertoire, with which each participant in the competition presents himself as comprehensively as possible. According to the results of the Jury members, the average is calculated, based on which awards, plaques or awards are given to the participants of the competition. The results of the Jury are final and are published on the board at the competition venue and on the online platforms used by the event organizer for advertising purposes. A list with results is signed by the Jury members and the competition leader. The results of the Jury cannot be appealed.

After each competition day, jury members will be available for a brief interview with the contestants who performed that day.
